NATIONWIDE CRANE TRAINING

WE GUARANTEE YOU WILL PASS!!!

Certification provides the proof that training has been effective, specifically that crane operators have the requisite knowledge and skill to operate a crane safely. **OSHA** officially recognizes certification as evidence of an employer having met its requirements for training. Employers, Insurance Companies, and project owners continue to use **CCO Certification** as a risk management tool by requiring it as a condition of work.

Much of the industry that uses cranes (steel erection, petrochemical, crane rental, construction, energy and general industry, as well as training, manufacturing, insurance, OSHA and the IUOE) already certifies their operators, which also adds as an advantage over those who are not **CCO Certified!**

Safety is one of the most important issues we face, and proficiency of crane operators is key. Operators carrying **CCO Certification** Cards have demonstrated they possess the fundamental knowledge and skills necessary for the safe operation of cranes-without relying on subjective recommendations or judgment.

A comprehensive industry study recommends certification not just for crane operators, but also for *Signalpersons, Riggers and Inspectors*.

Nationwide Crane Training, Inc. has designed an intense and fun class, complete with practical (hands on) testing that will get anyone from the novice to a full time crane operator through the crane operator certification written tests and practicals with ease. **Nationwide Crane Training, Inc.** not just teaches crane test preparation, we get candidates to understand the principles of crane operation & crane safety, which is why **Nationwide Crane Training, Inc.** is so effective.

Rest assured our Three Day CCO Prep Class is first-rate.

NCT has helped thousands of crane operators obtain their CCO Card.

NCT focuses on the type of questions that will be on the exam as well as all principals of safety.

NCT is a **“one stop”** shop, get your written exam and practical exam done within the Three Day class.
